PREFACE

The following list is a contribution towards a bibliography of discussions of American college and university government and administration, with a few titles on foreign universities. It does not include material on salaries and pensions, curriculum and entrance requirements, or such special topics as student discipline, degrees, scholarships, etc. Discussions on academic freedom have been included when closely related to questions of college government but many general discussions, and controversies in denominational institutions have been omitted.

This list is far from complete, and least complete for 1919 and 1920, since most of the work on it was done two years ago. The opportunity to print it came unexpectedly, and it has been hastily brought down through December, 1920. No titles have been included which have not been examined by the compiler.

In addition to the indexes to periodical literature, the following bibliographies have been examined:

Adamson, J. W. A guide to the history of education. Lond., Society for promoting Christian knowledge, 1920. 47 p. (Helps for students of history, no. 24.)

Association of American agricultural colleges and experiment stations—Committee on college organization and policy. Bibliography on college organization and administration. (In *Association of American agricultural colleges and experiment stations. Proceedings.* 1915. p. 115-123.)

Bryner, Edna. A selected bibliography of certain phases of educational measurement: Articles about surveys and lists of surveys. In *National society for the study of education. Yearbook* 1918. v. 17, pt. 2, p. 182-183.

Columbia University—Library. Books on education in the libraries of Columbia University. N. Y., Columbia Univ., 1901. 435 p. (Library bulletins, no. 2.) Higher education, p. 137-212.

Keppel, F. P. Books about the college. *School and society*, 3:639-642, Apr. 29, 1916.

Levin, Nathan R. Annotated bibliography of educational surveys. 1918. Ms. bibliography, New York State Library School.

MacCaughey, Vaughan. The college president; a concise bibliography. *School and society*, 6:474-478, Oct. 20, 1917.

Oberlin College. Report of the committee on tests of college efficiency: Bibliography. In its Annual reports of the president and treasurer... 1908-1909. p. 202-205.

U. S. Bureau of education. Bibliography of education for 1907-1912. (Its *Bulletin*, 1908, no. 3; 1909, no. 9; 1911, no. 10; 1913, no. 59; 1915, no. 30.)

U. S. Bureau of education. List of references on educational surveys. 16 p. (Its *Library leaflet*, no. 12, Oct., 1920.)

U. S. Bureau of education. Monthly list of current educational publications, Jan. 1913-Dec. 1920.

Wyer, J. I. jr. & others. Bibliography of education for 1899-1906. *Educational review*, Apr., 1900, Apr., 1901, June, 1902, June, 1903, June, 1904, June, 1905, Sept. and Oct., 1906, June, 1907.

The catalogues of several college and university libraries and especially the notes of Miss Edith Coulter, Reference Librarian of the University of California and of Mr. Phineas Windsor, Librarian of the University of Illinois added many important references.

The interest and advice of Professor Lucy M. Salmon, Professor Rose Peebles, and Miss Adelaide Underhill, all of Vassar College, have been of great help.

Material on individual institutions has been included when at hand but extensive search has not been made for it. It is hoped that a supplementary list may be issued next year and if individual colleges and universities will send to Vassar College Library copies of their publications on government and administration or will send us lists of titles, they will be included. Charters, by-laws, reports of surveys, reports of committees of governing boards and reports on faculty organization are especially desired.

The reports and proceedings of the following associations, contain many papers on college and university questions besides those which have been separately listed: American association of collegiate registrars, American association of university professors, Association of alumni secretaries, Association of American colleges, Association of American universities, Carnegie foundation for the advancement of teaching, General education board, National association of state universities, National conference committee on standards of colleges, National education association.

Official reports of colleges and universities, reports of the various associations of colleges and preparatory schools, the annual reports of the United States Bureau of education and its *Higher education circular* contain much material on the subject in addition to that included here.

The list is arranged chronologically and is followed by an author and institution index. Anonymous articles have not been indexed.

A LIST OF REFERENCES ON COLLEGE AND UNIVERSITY GOVERNMENT AND ADMINISTRATION
